Components in this Release

Component	Version
Console	8.1.128.0
Agent	8.1.128.0
Documentation	8.1.71.0

New Features

There are no new features introduced in this maintenance release.

Bugs Fixed

The following reported issues have been resolved in this release:

Bug#	Title	Details
26886	Console issue with multiple line comments	When saving a configuration to the Management Console, the user can enter multiple lines by pressing the enter key. When the configuration is next opened the additional lines are overlaid over the 'Version' information.

Supported Operating Systems and Technologies

The supported Operating Systems and Technologies are now detailed in a compatibility matrix available on www.myAppSense.com (select **Software > Performance Manager > Compatibility Matrix**).

Required Utilities and Components

Component	Required Utilities and Components
